Methodological note

The Statistics on Transfer of Property Rights provide information on the number of rights on transfers of property during the reference month, on a national level, by province and Autonomous Community.

All information on transfers of property is taken from the information contained in the Land Registers for the whole country, by virtue of a [partnership agreement](#) signed in 2004 by both institutions.

Type of survey: continuous on a monthly basis.

Population scope: registrations of transfers of property rights in the land registers.

Geographical scope: the entire national territory, by Autonomous Community and provinces.

Reference period of the results: the calendar month.

Reference period of the information: the calendar month.

Classification: sale, donation, inheritance, exchange and other property titles, of rustic and urban properties (dwellings, plots and other urban properties).

Collection method: administrative registers from Association of property and Mercantile registers of Spain.

For more information you can access the [methodology](#) and the [standardised methodological report](#).

INE statistics are produced in accordance with the Code of Good Practice for European Statistics. More information on [Quality at INE](#) and [Code of Best Practices](#).
